REPORT ON 5-DAY ROBOTIC BOOT CAMP ON SMART HACKTHON

- 1. Objective of the Event: Innovation:** Since one of the main goals of hackathons is developing new ideas, it's safe to say that every hackathon is a place where innovation is born. It's the most efficient environment for problem-solving and the most suitable place for developing new ideas involving coding, software solutions, and technology.
- 2. In most cases, hackathons are fairly flexible regarding required qualifications and skill levels.** Additionally, you may participate in such events as an observer if you don't have programming skills. In this way, you can benefit by making new connections and learning from professionals without directly participating. Observing is also suitable for those who want to pursue a career in software and hardware development but aren't sure where to start. Even though hackathons might not introduce specific qualification requirements.

3. Venue of the Event:

The event is conducted at **First Floor Seminar hall of Malineni Lakshmaiah Women's Engineering College, Pulladigunta, Guntur, Andhra Pradesh**

4. Date & Time of the Event:

Date	Time	Program
24 July to 28 July 2022	9:00 am to 05:00 pm	Smart Hackthon
29 July 2022	9:00 am to 05:00 pm	Smart Hackthon Coding

4. No. of students participated: 121 students

5. No. of faculties participated: 3

6. No. of external Experts participated: 6

5. Learning Outcomes:

The Smart India Hackathon (SIH) is envisioned to promote innovation and out-of-the-box thinking among young minds and aims to institutionalize a model for harnessing the creativity and technical expertise of millions of Indian students for the direct benefit of our nation.

6. Participant Feedback:

I am, studying 2nd year B.Tech CSE buttula kalpana in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Bootcamp & Robotix Gaming Competition on **smart hackthon** in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Boot camp & Gaming competition. I attended the program from. I learn the concepts of Arduino programming using different sensors & Motors for Preparing a my Own Robot and having an a wonderful Experience to Participate Competition with My Classmates like Aqua Soccer, Line Follower, Maze finder etc.. . This program helps me to gain the Knowledge about Robotics and Day to Day trending Technologies .

REPORT ON 5-DAY ROBOTIC BOOT CAMP ON SMART HACKTHON

- 1. Objective of the Event: Innovation:** Since one of the main goals of hackathons is developing new ideas, it's safe to say that every hackathon is a place where innovation is born. It's the most efficient environment for problem-solving and the most suitable place for developing new ideas involving coding, software solutions, and technology.
- 2. In most cases, hackathons are fairly flexible regarding required qualifications and skill levels.** Additionally, you may participate in such events as an observer if you don't have programming skills. In this way, you can benefit by making new connections and learning from professionals without directly participating. Observing is also suitable for those who want to pursue a career in software and hardware development but aren't sure where to start. Even though hackathons might not introduce specific qualification requirements

3. Venue of the Event:

The event is conducted at **First Floor Seminar hall of Malineni Lakshmaiah Women's Engineering College, Pulladigunta, Guntur, Andhra Pradesh**

4. Date & Time of the Event:

Date	Time	Program
24 July to 28 July 2022	9:00 am to 05:00 pm	Smart Hackthon
29 July 2022	9:00 am to 05:00 pm	Smart Hackthon Coding

4. No. of students participated: 121 students

5. No. of faculties participated: 3

6. No. of external Experts participated: 6

5. Learning Outcomes:

The Smart India Hackathon (SIH) is envisioned to promote innovation and out-of-the-box thinking among young minds and aims to institutionalize a model for harnessing the creativity and technical expertise of millions of Indian students for the direct benefit of our nation.

6. Participant Feedback:

I am, studying 2nd year B.Tech CSE buttula kalpana in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Bootcamp & Robotix Gaming Competition on **smart hackthon** in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Boot camp & Gaming competition. I attended the program from. I learn the concepts of Arduino programming using different sensors & Motors for Preparing a my Own Robot and having an a wonderful Experience to Participate Competition with My Classmates like Aqua Soccer, Line Follower, Maze finder etc.. . This program helps me to gain the Knowledge about Robotics and Day to Day trending Technologies .

REPORT ON 5-DAY ROBOTIC BOOT CAMP ON SMART HACKTHON

- 1. Objective of the Event: Innovation:** Since one of the main goals of hackathons is developing new ideas, it's safe to say that every hackathon is a place where innovation is born. It's the most efficient environment for problem-solving and the most suitable place for developing new ideas involving coding, software solutions, and technology.
- 2. In most cases, hackathons are fairly flexible regarding required qualifications and skill levels.** Additionally, you may participate in such events as an observer if you don't have programming skills. In this way, you can benefit by making new connections and learning from professionals without directly participating. Observing is also suitable for those who want to pursue a career in software and hardware development but aren't sure where to start. Even though hackathons might not introduce specific qualification requirements.

3. Venue of the Event:

The event is conducted at **First Floor Seminar hall** of **Malineni Lakshmaiah Women's Engineering College**, Pulladigunta, Guntur, Andhra Pradesh

4. Date & Time of the Event:

LETTER OF INVITATION

To,

Madhu Parvathaneni

Make Skilled, Hyderabad.

Respected Sir,

Sub: Proposed for Organizing a Workshop for III B.Tech ECE Students –Reg.

On behalf of Malineni Lakshmaiah Women's Engineering College . we are very pleased to invite you to Organize for a Workshop on Robotics for II CSE students. The workshop should consists of "Learn & Do" models like building human robotsby the students and at the end of the program the closure should be a gaming event. The event shulod be beneficial to students to gain insights into latest technology trends and best practice. We would be honoured to collabrate with you to make event a Successful one and I request you to send the detailed schedule of the workshop. We look froward to positive response and kindly communicate your acceptance at the earliest.

Thanking you,

Yours sincerely,

1. Objective of the Event:

The objective of the Boot Camp for the students should consist of "Learn & DO" models like building human Arduino based Robots to enhance their Fastest learning Skills and build the bright future for newest technologies. The main motive of this Boot Camp for the students is to gain the knowledge on how to make robots and controlled wired Robot, Assembling of autonomous robot, Mobile controlled IOT robot using Arduino based programming and learns the programming language using Arduino regarding making robotic components for light follower sensors, Line follower. After learning all these students make their own robots in the workshop for gaming competition. In this ROBOTIX Gaming competition the following games will be conducted amongst the students groups

1. Aqua Soccer
2. Robo Soccer

By the end of the Competition students should be awarded for different gaming

2. Venue of the Event:

The event is conducted at **First Floor Seminar hall of Malineni Lakshmaiah Women's Engineering College**, Pulladigunta, Guntur, Andhra Pradesh

3. Date & Time of the Event:

4. Gist of the program:

In 5-day **Boot Camp** students are trained up with Arduino Programming, Making of their own Robots like Wired & Wireless for Gaming Competition. In Robotix Gaming Competition, students are participated each group along with their own robot for playing Aqua Soccer Robot in water & Maze Robot for Race in Gaming arena . Each Student group is Competitive with another group for Gaming .By the end of the program Students are awarded for their Gaming winners .

5. Learning Outcomes:

- Knowledge and skills of Robots using Arduino programming, Sensors system and different Motors.
- Knowledge and skills to design a Robots using wired ,Autonomous Robots & Wireless Robots using WI-FI module
- Gain the Capability to design their own Robots for Gaming in different areas and fastest learning new technology to the Automatic Functioning in the day to day life

6. Participant Feedback:

I am NagaSri Studying 3rd year B.Tech in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Bootcamp & Robotix Gaming Competition on **Robotics** in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Boot camp & Gaming competition. I attended the program from Sep 7, 2022 to sep 10,2022. I learn the concepts of Arduino programming using different sensors & Motors for Preparing a my Own Robot and having an a wonderful Experience to Participate in Robotix Gaming Competition with My Classmates like Aqua Soccer, Line Follower, Maze finder etc.. . This program helps me to gain the Knowledge about Robotics and Day to Day trending Technologies to invent more Robots for Society

Respected Sir,

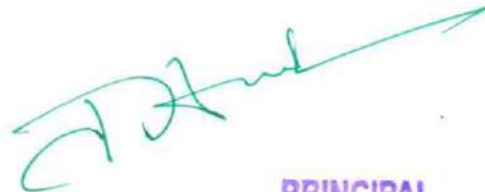

Sub: Proposed for Organizing a Workshop for III B.Tech ECE Students –Reg.

On behalf of Malineni Lakshmaiah Women's Engineering College . we are very pleased to invite you to Organize for a Workshop on Robotics for II CSE students. The workshop should consists of "Learn & Do" models like building human robots by the students and at the end of the program the closure should be a gaming event. The event shuld be beneficial to students to gain insights into latest technology trends and best practice. We would be honoured to collabrate with you to make event a Successful one and I request you to send the detailed schedule of the workshop. We look froward to positive response and kindky communicate your acceptance at the earliest.

Thanking you,

Yours sincerely,

REPORT ON 5-DAY ROBOTIC BOOT CAMP & ROBOTIX GAMING COMPETITION

1. Objective of the Event:

The objective of the Boot Camp for the students should consist of "Learn & DO" models like building human Arduino based Robots to enhance their Fastest learning Skills and build the bright future for newest technologies. The main motive of this Boot Camp for the students is to gain the knowledge on how to make robots and controlled wired Robot, Assembling of autonomous robot, Mobile controlled IOT robot using Arduino based programming and learns the programming language using Arduino regarding making robotic components for light follower sensors, Line follower. After learning all these students make their own robots in the workshop for gaming competition. In this ROBOTIX Gaming competition the following games will be conducted amongst the students groups

1. Aqua Soccer
2. Robo Soccer

By the end of the Competition students should be awarded for different gaming

2. Venue of the Event:

The event is conducted at **First Floor Seminar hall** of **Malineni Lakshmaiah Women's Engineering College**, Pulladigunta, Guntur, Andhra Pradesh

3. Date & Time of the Event:

Date	Time	Program
Sep 7, 2022 to sep 10, 2022	9:00 am to 05:00 pm	ROBOTIC BOOTCAMP

4. Gist of the program:

In 5-day **Boot Camp** students are trained up with Arduino Programming, Making of their own Robots like Wired & Wireless for Gaming Competition. In Robotix Gaming Competition, students are participated each group along with their own robot for playing Aqua Soccer Robot in water & Maze Robot for Race in Gaming arena . Each Student group is Competitive with another group for Gaming .By the end of the program Students are awarded for their Gaming winners .

5. Learning Outcomes:

- Knowledge and skills of Robots using Arduino programming, Sensors system and different Motors.
- Knowledge and skills to design a Robots using wired ,Autonomous Robots & Wireless Robots using WI-FI module
- Gain the Capability to design their own Robots for Gaming in different areas and fastest learning new technology to the Automatic Functioning in the day to day life

LETTER OF INVITATION

To,

Madhu Parvathaneni
Make Skilled, Hyderabad.

Respected Sir,

Sub: Proposed for Organizing a Workshop for III B.Tech ECE Students –Reg.

On behalf of Malineni Lakshmaiah Women's Engineering College . we are very pleased to invite you to Organize for a Workshop on Robotics for II CSE-DS students. The workshop should consists of "Learn & Do" models like building human robotsby the students and at the end of the program the closure should be a gaming event. The event shulod be beneficial to students to gain insights into latest technology trends and best practice. We would be honoured to collabrate with you to make event a Successful one and I request you to send the detailed schedule of the workshop. We look froward to positive response and kindky communicate your acceptance at the earliest.

Thanking you,

Yours sincerely,

REPORT ON 5-DAY ROBOTIC BOOT CAMP & ROBOTIX GAMING COMPETITION

1. Objective of the Event:

The objective of the Boot Camp for the students should consist of "Learn & DO" models like building human Arduino based Robots to enhance their Fastest learning Skills and build the bright future for newest technologies. The main motive of this Boot Camp for the students is to gain the knowledge on how to make robots and controlled wired Robot, Assembling of autonomous robot, Mobile controlled IOT robot using Arduino based programming and learns the programming language using Arduino regarding making robotic components for light follower sensors, Line follower. After learning all these students make their own robots in the workshop for gaming competition. In this ROBOTIX Gaming competition the following games will be conducted amongst the students groups

1. Aqua Soccer

2. Robo Soccer

By the end of the Competition students should be awarded for different gaming

2. Venue of the Event:

The event is conducted at **First Floor Seminar hall** of **Malineni Lakshmaiah Women's Engineering College**, Pulladigunta, Guntur, Andhra Pradesh

3. Date & Time of the Event:

Date	Time	Program
Sep 7, 2022 to sep 10, 2022	9:00 am to 05:00 pm	ROBOTIC BOOTCAMP

4. Gist of the program:

In 5-day **Boot Camp** students are trained up with Arduino Programming, Making of their own Robots like Wired & Wireless for Gaming Competition. In Robotix Gaming Competition, students are participated each group along with their own robot for playing Aqua Soccer Robot in water & Maze Robot for Race in Gaming arena . Each Student group is Competitive with another group for Gaming .By the end of the program Students are awarded for their Gaming winners .

5. Learning Outcomes:

- Knowledge and skills of Robots using Arduino programming, Sensors system and different Motors.
- Knowledge and skills to design a Robots using wired ,Autonomous Robots & Wireless Robots using WI-FI module
- Gain the Capability to design their own Robots for Gaming in different areas and fastest learning new technology to the Automatic Functioning in the day to day life

6. Participant Feedback:

I am NagaSri Studying 3rd year B.Tech in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Bootcamp & Robotix Gaming Competition on **Robotics** in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Boot camp & Gaming competition. I attended the program from Sep 7, 2022 to sep 10,2022. I learn the concepts of Arduino programming using different sensors & Motors for Preparing a my Own Robot and having an a wonderful Experience to Participate in Robotix Gaming Competition with My Classmates like Aqua Soccer, Line Follower, Maze finder etc.. . This program helps me to gain the Knowledge about Robotics and Day to Day trending Technologies to invent more Robots for Society

Make Skilled, Hyderabad.

Respected Sir,

Sub: Proposed for Organizing a Workshop for III B.Tech ECE Students –Reg.

On behalf of Malineni Lakshmaiah Women's Engineering College . we are very pleased to invite you to Organize for a Workshop on Robotics for II AIDS students. The workshop should consists of "Learn & Do" models like building human robots by the students and at the end of the program the closure should be a gaming event. The event shuld be beneficial to students to gain insights into latest technology trends and best practice. We would be honoured to collabrate with you to make event a Successful one and I request you to send the detailed schedule of the workshop. We look froward to positive response and kindky communicate your acceptance at the earliest.

Thanking you,

Yours sincerely,

REPORT ON 5-DAY ROBOTIC BOOT CAMP & ROBOTIX GAMING COMPETITION

1. Objective of the Event:

The objective of the Boot Camp for the students should consist of "Learn & DO" models like building human Arduino based Robots to enhance their Fastest learning Skills and build the bright future for newest technologies. The main motive of this Boot Camp for the students is to gain the knowledge on how to make robots and controlled wired Robot, Assembling of autonomous robot, Mobile controlled IOT robot using Arduino based programming and learns the programming language using Arduino regarding making robotic components for light follower sensors, Line follower. After learning all these students make their own robots in the workshop for gaming competition. In this ROBOTIX Gaming competition the following games will be conducted amongst the students groups

1. Aqua Soccer
2. Robo Soccer

By the end of the Competition students should be awarded for different gaming

2. Venue of the Event:

The event is conducted at **First Floor Seminar hall** of **Malineni Lakshmaiah Women's Engineering College**, Pulladigunta, Guntur, Andhra Pradesh

3. Date & Time of the Event:

4. Gist of the program:

In 5-day **Boot Camp** students are trained up with Arduino Programming, Making of their own Robots like Wired & Wireless for Gaming Competition. In Robotix Gaming Competition, students are participated each group along with their own robot for playing Aqua Soccer Robot in water & Maze Robot for Race in Gaming arena . Each Student group is Competitive with another group for Gaming .By the end of the program Students are awarded for their Gaming winners .

5. Learning Outcomes:

- Knowledge and skills of Robots using Arduino programming, Sensors system and different Motors.
- Knowledge and skills to design a Robots using wired ,Autonomous Robots & Wireless Robots using WI-FI module
- Gain the Capability to design their own Robots for Gaming in different areas and fastest learning new technology to the Automatic Functioning in the day to day life

6. Participant Feedback:

I am NagaSri Studying 3rd year B.Tech in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Bootcamp & Robotix Gaming Competition on **Robotics** in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Boot camp & Gaming competition. I attended the program from Sep 7, 2022 to sep 10,2022. I learn the concepts of Arduino programming using different sensors & Motors for Preparing a my Own Robot and having an a wonderful Experience to Participate in Robotix Gaming Competition with My Classmates like Aqua Soccer, Line Follower, Maze finder etc.. . This program helps me to gain the Knowledge about Robotics and Day to Day trending Technologies to invent more Robots for Society

3. Learning Outcomes:

- **Increased awareness:** Participants gained a better understanding of the importance of cyber security and ethical hacking, the risks associated with cybercrime. This will help them to be more vigilant and take appropriate measures to protect their personal and professional information
- **Improved knowledge:** The Workshop equipped participants with the knowledge and skills required to implement effective cyber security measures and defend against cyber threats. They learnt about the latest tools and techniques used by ethical hackers to identify vulnerabilities and mitigate risks.
- **Enhanced security:** By implementing the strategies and recommendations provided in the Workshop, participants will be able to enhance the security of their systems and networks. This will reduce the risk of data breaches, identity theft, and other forms of cybercrime.
- **Increased collaboration:** The Workshop provided a platform for participants to network and collaborates with the professionals in the field. This led to the sharing of ideas and best practices.
- **Greater confidence:** Armed with the knowledge and skills gained from the Workshop, participants gained greater confidence in their ability to protect themselves and their organizations from cyber threats.

4. Participant Feedback:

I am Potharlanka.Haritha (20KE1A0586), studying 2nd year B.Tech CSE in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Workshop on Cyber Security in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Cyber Security. I attended the program from 05-10-2022 to 9-10-2022 I learn the concepts of about types of attacks, attackers and security threats and vulnerabilities present in the computer system as well as tools and techniques to safeguard oneself in cyber space.

3. Learning Outcomes:

- **Increased awareness:** Participants gained a better understanding of the importance of cyber security and ethical hacking, the risks associated with cybercrime. This will help them to be more vigilant and take appropriate measures to protect their personal and professional information
- **Improved knowledge:** The Workshop equipped participants with the knowledge and skills required to implement effective cyber security measures and defend against cyber threats. They learnt about the latest tools and techniques used by ethical hackers to identify vulnerabilities and mitigate risks.
- **Enhanced security:** By implementing the strategies and recommendations provided in the Workshop, participants will be able to enhance the security of their systems and networks. This will reduce the risk of data breaches, identity theft, and other forms of cybercrime.
- **Increased collaboration:** The Workshop provided a platform for participants to network and collaborates with the professionals in the field. This led to the sharing of ideas and best practices.
- **Greater confidence:** Armed with the knowledge and skills gained from the Workshop, participants gained greater confidence in their ability to protect themselves and their organizations from cyber threats.

4. Participant Feedback:

I am Potharlanka.Haritha (20KE1A0586), studying 2nd year B.Tech CSE in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Workshop on Cyber Security in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Cyber Security. I attended the program from 05-10-2022 to 9-10-2022 I learn the concepts of about types of attacks, attackers and security threats and vulnerabilities present in the computer system as well as tools and techniques to safeguard oneself in cyber space.

DEPARTMENT OF CSE AND DATA SCIENCE

3. Learning Outcomes:

- **Increased awareness:** Participants gained a better understanding of the importance of cyber security and ethical hacking, the risks associated with cybercrime. This will help them to be more vigilant and take appropriate measures to protect their personal and professional information.
- **Improved knowledge:** The Workshop equipped participants with the knowledge and skills required to implement effective cyber security measures and defend against cyber threats. They learned about the latest tools and techniques used by ethical hackers to identify vulnerabilities and mitigate risks.
- **Enhanced security:** By implementing the strategies and recommendations provided in the Workshop, participants will be able to enhance the security of their systems and networks. This will reduce the risk of data breaches, identity theft, and other forms of cybercrime.
- **Increased collaboration:** The Workshop provided a platform for participants to network and collaborate with the professionals in the field. This led to the sharing of ideas and best practices.
- **Increased confidence:** Armed with the knowledge and skills gained from the Workshop, participants gained greater confidence in their ability to protect themselves and their organizations from cyber threats.

4. Participant Feedback:

I am Potharlanka.Haritha (20KE1A0586), studying 2nd year B.Tech CSE in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Workshop on Cyber Security in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Cyber Security. I attended the program from 05-10-2022 to 9-10-2022. I learned the concepts of about types of attacks, attacker security threats and vulnerabilities present in the computer system as well as tools and techniques to safeguard oneself in cyber space.

REPORT ON 5 Days Work Shop And 24Hours hackathon on DESIGN THINKING

1. OBJECTIVE OF THE EVENT:

The objective of the Boot Camp for the students to leverage strong analytical and technical abilities to develop effective data models, visualize data, and uncover insights that drive organizational success. In a data science hackathon, participants dig deep into datasets to extract insights and build predictive models. The outcomes of design thinking

hackathons are often measured by the accuracy or effectiveness of the models created. The success of a data science project depends on how well it performs when applied to new data.

The main motive of this Boot Camp for the students is to gain the knowledge on python and data science and also learn machine learning techniques, based on the knowledge students developed small projects

By the end of the Competition students should be awarded for different gaming

2. Venue of the Event:

The event is conducted at **First Floor Seminar hall** of **Malineni Lakshmaiah Women's Engineering College**, Pulladigunta, Guntur, Andhra Pradesh

4. No. of students participated: 132 students

3. PARTICIPANT FEEDBACK:

I am **GADDE RAMYA**, studying III rd year B.Tech in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Work Shop And 24Hours hackathon on DESIGN THINKING in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Boot camp & competition. I attended the program from 24-01-2023 to 28-01-2023 . I learnt the concepts and having an a wonderful Experience to Participate in Competition with My Classmates. This program helps me to gain the Knowledge about design thinking and Day to Day trending Technologies.

REPORT ON 5 Days Work Shop And 24Hours hackathon on DESIGN

THINKING

1. OBJECTIVE OF THE EVENT:

The objective of the Boot Camp for the students to leverage strong analytical and technical abilities to develop effective data models, visualize data, and uncover insights that drive organizational success. In a data science hackathon, participants dig deep into datasets to extract insights and build predictive models. The outcomes of design thinking

hackathons are often measured by the accuracy or effectiveness of the models created. The success of a data science project depends on how well it performs when applied to new data.

The main motive of this Boot Camp for the students is to gain the knowledge on python and data science and also learn machine learning techniques, based on the knowledge students developed small projects

By the end of the Competition students should be awarded for different gaming

2. Venue of the Event:

The event is conducted at **First Floor Seminar hall of Malineni Lakshmaiah Women's Engineering College, Pulladigunta, Guntur, Andhra Pradesh**

3. No. of students participated: 132 students

4. No. of faculties participated: 3

5. No. of external Experts participated: 6

3. PARTICIPANT FEEDBACK:

I am **GADDE RAMYA**, studying III rd year B.Tech in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Work Shop And 24Hours hackathon on DESIGN THINKING in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Boot camp & competition. I attended the program from 24-01-2023 to 28-01-2023 . I learnt the concepts and having an a wonderful Experience to Participate in Competition with My Classmates. This program helps me to gain the Knowledge about design thinking and Day to Day trending Technologies.

REPORT ON 5 Days Work Shop And 24Hours hackathon on DESIGN

THINKING

1. OBJECTIVE OF THE EVENT:

The objective of the Boot Camp for the students to leverage strong analytical and technical abilities to develop effective data models, visualize data, and uncover insights that drive organizational success. In a data science hackathon, participants dig deep into datasets to extract insights and build predictive models. The outcomes of design thinking hackathons are often measured by the accuracy or effectiveness of the models created. The success of a data science project depends on how well it performs when applied to new data.

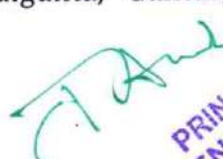

The main motive of this Boot Camp for the students is to gain the knowledge on python and data science and also learn machine learning techniques, based on the knowledge students developed small projects

By the end of the Competition students should be awarded for different gaming

2. Venue of the Event:

The event is conducted at **First Floor Seminar hall of Malineni Lakshmaiah Women's Engineering College**, Pulladigunta, Guntur, Andhra Pradesh

3. No. of students participated: 132 students
4. No. of faculties participated: 3

3. PARTICIPANT FEEDBACK:

I am **GADDE RAMYA**, studying III rd year B.Tech in Malineni Lakshmaiah Women's Engineering College. I have attended 5-day Work Shop And 24Hours hackathon on DESIGN

THINKING in our college. Firstly, I want to thank my college management for providing an opportunity to participate in innovative program like Boot camp & competition. I attended the program from 24-01-2023 to 28-01-2023 . I learnt the concepts and having an a wonderful Experience to Participate in Competition with My Classmates. This program helps me to gain the Knowledge about design thinking and Day to Day trending Technologies.
